PROFILE

Frontend Engineer with 4 years of experience in web development, specializing in React.js, Next.js, JavaScript, and TypeScript. Expertise in translating product requirements and design mockups into responsive, performant web applications. Strong foundation in UI/UX development, performance optimization, and agile software engineering, with a focus on building scalable UI components and clean, maintainable code.

SKILLS

Frontend: React.js, Next.js, JavaScript ES6, TypeScript, Redux Toolkit, Tailwind CSS, Jest, React Testing Library, Context API, HTML5, CSS3

Performance & Tools : Core Web Vitals (LCP, CLS, FCP), Lighthouse, Webpack, Vite, SSR, Code Splitting, WCAG

Backend & Cloud: Node.js, Express.js, MongoDB, REST APIs, AWS S3, AWS EC2, AWS IAM, Vercel, GitHub

Data Visualization : D3.js, Chart.js

EXPERIENCE

Gaming Prism Pvt Ltd.

Feb 2025 – Nov 2025

Frontend Engineer

Kolkata, WB

- Championed key features for a social engagement platform using React and Redux, collaborating with Product, UX teams to translate product requirements into features that boosted user engagement by 20%.
- Reduced initial load time by 25–30% by defining front-end architecture with Next.js server-side rendering (SSR), middleware for routing, and code splitting to optimize scalability and performance.
- Engineered high-performance, responsive UI using CSS3, Tailwind CSS, and ES6+ across 5+ device breakpoints, utilizing Git for version control and ensuring cross-browser compatibility with zero critical layout regressions.
- Improved Core Web Vitals (LCP, CLS, FCP) via image optimization and lazy loading, achieving Lighthouse performance scores above 90 across all key pages.
- Advocated for accessibility-first development and conducted code reviews to ensure WCAG compliance and adherence to coding standards, increasing accessibility scores by 85%.

Freelance & Contract Work (Bengaluru/Remote)

Jun 2023 – Oct 2024

Software Engineer | Advanced Structures India - Aug 2024 – Oct 2024

- Crafted 15+ reusable React components and maintainable design systems, utilizing high-level abstraction to reduce code duplication by ~30% and improve long-term system scalability.
- Centralized application state management using Redux and Context API across 6+ modules, eliminating data inconsistency and improving predictability of front-end systems.
- Partnered with backend engineers to refactor 5+ RESTful API integrations, reducing response payload size and improving frontend load performance through optimized asynchronous programming.

Full Stack Developer | Freelancing - Dec 2023 – Jul 2024

- Delivered a full-stack course management platform using MongoDB, Express.js, Next.js, and Node.js, delivering end-to-end features across 3 user flows within a 4-month timeline.
- Defined and implemented secure authentication and RBAC using JWT and OAuth2 principles, streamlining enrollment processes by 15% while ensuring system availability.
- Designed responsive UI using Tailwind CSS and Material UI, ensuring 5+ cross-device compatibility and high-performance rendering for consumer-facing web applications.

Frontend Developer | TIF Labs Pvt Ltd - Jun 2023 – Aug 2023

- Developed a React and TypeScript workflow generator UI enabling end-to-end process automation with up to 8 configurable steps, reducing manual setup time by ~3 hours per workflow.

Aeonix Research & Innovations LLP

Jun 2022 – May 2023

Frontend Engineer

Kolkata, WB

- Enhanced React components using lazy loading and memoization, reducing rendering latency and improving UI performance by 40% for data-heavy dashboards.
- Owned the frontend codebase (~15,000 lines) using React, TypeScript, and Context API, ensuring integration into the software configuration management system via GitHub.
- Enforced code quality via Unit Testing with Jest and React Testing Library, performing regular code reviews and maintaining over 65% code coverage to ensure application reliability and security.
- Collaborated across 3 teams to ship 10+ features on schedule, providing technical guidance and mentoring to 2 junior engineers in an agile environment while adhering to strict coding standards.

INTERSHIP

Frontend Developer Intern - Aeonix Research and Innovations LLP

Dec 2021 - May 2022

EDUCATION

University Of Calcutta

Bachelor Of Technology - Information Technology | CGPA - 8.00

Kolkata, WB

Jun 2019 – Jul 2022

University Of Calcutta

Bachelor of Science — Computer Science | Percentage - 61.75%

Kolkata, WB

Jun 2015 – Jun 2019

CERTIFICATION

IITM -Pravartak Full Stack Developer Course ,
AWS Certified Developer – Associate, Udemy ,
Complete AI Guide – ChatGPT & Generative AI, Udemy
